

# N.I. App Privacy Policy

## MW "Not Interested" Privacy Policy

This documents describes MW *"Not Interested"* Privacy Policy for mobile apps.

So let's be clear: We couldn't possibly care less for your data. We care only for your money when you buy our products. No tracking is done from our part. Our server does not store any information from your usage, or any input given. All data is stored locally and can be destroyed by you when uninstalling the app. If there is any tracking, it's from the mobile system itself, and we are not responsible.

We don't believe our users should be tracked. We are against this type of business model that makes money from user personal data. The world is full of these practices and we are being the alternative option.

Sincerely,

*Lucas Menezes* - MW Owner
